

St Francis Day School

Daily Agreement/Waiver:

- To my knowledge, the child I am dropping off does not have COVID-19
- There are no close contacts or household members with a confirmed case of COVID-19 nor are presenting any related symptoms
- The child I am dropping off does not currently have any of the symptoms listed below:
 - Fever (Fever is determined by a thermometer reading above normal or by subjective signs such as flushed cheeks, fatigue, extreme fussiness, chills, shivering, sweating, achiness, headache, not eating or drinking)
 - Cough
 - Shortness of breath
 - Excessive runny nose
 - Runny nose presenting a consistent green color
 - Sore throat
 - Headache
 - Vomiting
 - Diarrhea
 - Loss of taste or smell
 -
- My child has not been given any medication that could mask symptoms they are experiencing
- I understand that if any symptoms arise throughout the day in my child, I will be notified and required to pick up within 30 minutes and then follow the Exclusion Policy provided
- I have read through and understand the policies provided to me (TURN OVER)

Child/children _____

This form shall be kept on file for the 2020-2021 school year.

Returning to School

A child can return to school when a family member can ensure they can answer YES to ALL three questions:

- Has it been at least 10 days since the child first had symptoms?
- Has it been at least 24 hours since the child had a fever (without using fever reducing medicine)?
- Has there been symptom improvement, including cough and shortness of breath?

If a child has had a negative COVID-19 test, they can return to school once there is no fever without the use of fever-reducing medicines and have felt well for 24 hours.

If a child has been diagnosed with COVID-19 but does not have symptoms, they should remain out of school until 10 days have passed since the date of their positive COVID-19 diagnostic test, assuming they have not subsequently developed symptoms since their positive test.

If a child has been determined to have been in close contact with someone diagnosed with COVID-19, they should remain out of school for 14 days since the last known contact, unless they test positive. In which case, criteria above would apply. They must complete the full 14 days of quarantine even if they test negative.

A child can return to school, following normal school policies, if they receive a confirmation of an alternative diagnosis from a health care provider that would explain the COVID-19-like symptom(s), once there is no fever without the use of fever-reducing medicines and they have felt well for 24 hours. The school will need a copy of the diagnosis from a health care provider.
